UTRGV Football Coaching Tree History

EDGE3 · UTRGV Recruiting Intelligence Pilot · prepared for Dennis Livshyts · October 22, 2026

Why this exists

The UTRGV pilot reads every recruit against the coach's own standard, not a national average. The position archetypes come from two inputs: what the staff tells Cam in the Positional Baseline Workbook, and what each coach's history says about the players who produced for him and the players who did not. This document is the second input: the coaching tree for Head Coach Travis Bush and every position coach on the 2026 staff, with the top-performing and low-performing players at each stop where a tree could be mapped.

Coach Bush is a first-time college head coach, so his tree goes back to every stop where he was an assistant (Texas State, UTSA, Houston, Buffalo Bills) and his two Texas high school head-coaching jobs. The same method is applied to the ten position coaches.

Dennis's October 9 summary referenced "the tree designed for Coach Bush" as the template for coaching-tree data in the model. A sweep of the Edge3-demos and edge3-model repos, Google Drive, Gmail, the cloud sessions, and (on October 22, by a local session) the Desktop, Downloads and the UTRGV folders found no such file. "Coaching tree" appeared only as a method concept in the Wes French deck, the shadow IT process map, the August 9 carryover file and the wallet templates. The July Risk/Fit page addressed to Coach Bush and staff (`chase-utrgv-staff/index.html` on the Desktop) covers roster fit and staff stability with no tree. This document is therefore the first built-out tree, and the format below is shaped for the live pilot.

Method and limits

- Sources: official school bios, conference all-conference releases, NFL and UFL team releases, Wikipedia season pages, and regional press (Texas Football, RGV Sports, KRGV, Tucson.com and others). Every timeline row and every player row carries its source URLs.
- Rule for LOW performers: a player is listed as LOW only when a source documents the outcome (benched, transferred out after a down year, "expected breakout" that did not happen). No player is called low on judgment alone. That rule keeps the LOW set small and honest. It is thin on purpose.
- Direct page fetches failed from this environment (goutrgv.com, school sites and Wikipedia did not resolve), so every fact comes from search-result excerpts of the cited pages. Anything marked "unverified" or "not found" should be confirmed on the page before it is used in a coach-facing surface.
- FCS, Division II, JUCO and high school stops have little public honors coverage. Where a stop says "thin," the gap is in the public record, not in the coach.

Ranking rule for the player lists

Within each stop, the TOP and LOW lists are sorted highest to lowest by the same key: NFL outcome first, production second, PFF grade third.

Column	Values
NFL	NFL (drafted, NFL roster, or NFL honors) ranks above Pro (undrafted free agent, camp, practice squad, Arena/CFL/UFL), which ranks above blank. The Bills 2015 room is NFL by definition.
Production	6 All-American or conference/national player of the year · 5 first-team all-conference · 4 second team, newcomer, freshman or rookie of the year · 3 honorable mention, third team, all-region or academic · 2 school record or team-leading production · 1 stats only
PFF best	Best PFF season grade during the coach's years at that stop, matched on player, team and position group, from the licensed PFF NCAA tables in edge3-model (FBS, 2014 to 2025). Blank at FCS, D2, JUCO, high school and pre-2014 stops is expected. 26 of 103 player rows carry a PFF grade.

The three levels are stored on every player row in `coaching_tree.json` and `coaching_tree_players.csv` (`nfl_level`, `honor_level`, `pff_best`), so the sort can be re-run or changed in code.

The 2026 staff and where each tree roots

Coach	2026 title	Tree roots	Years as position coach or coordinator	Timeline confidence	Player-list confidence
Travis Bush	Head Coach	Texas State (Bailiff, Wright), UTSA (Coker), Houston (Levine, Meacham), Bills (Ryan, Roman, Lynn)	2004 to present	Medium-High	Medium
Brian Gamble	Asst. HC, Defensive Coordinator, LB	Texas A&M (Slocum, as player), Incarnate Word (Santiago, Kennan), Louisiana Tech (Holtz), Texas State (Spavitals)	2004 to present	Medium	Low-Medium
Jeff Bowen	Co-OC, Offensive Line	Texas State (played for Bush-era staff), UTSA (Coker, Bush), Northwestern State, NEO A&M, SFA, Northeastern State	2014 to present	Medium	Low
Theron Aych	Co-OC, Quarterbacks (play-caller)	Angelo State (Wagner), UTEP (Kugler), Arizona (Rodriguez, Sumlin), Tennessee State (George), Oklahoma State (Gundy, Meacham)	1997 to present	Medium	Low-Medium
Adrian McDonald	Pass Game Coordinator, Safeties	Houston (played under Levine while Bush was OC; Zac Spavital his DB coach), Texas State (Spavitals), Midwestern State	2018 to present	High	Low
Gunnar Henderson	Pass Game Coordinator, Wide Receivers	UTRGV only (Bush); played at UIW (Morris) and TCU (Patterson, Dykes)	2024 to present	High	Medium-Low
Mike Barela	Run Game Coordinator, Tight Ends	Texas State (Wright, with Bush), Northeastern State (Evans), UIW (Kennan), Colorado Mesa and Valdosta State (Jackson)	1996 to present	Medium-High	Medium
Marco Regalado	Running Backs, Recruiting Coordinator	Rice personnel (Bloomgren), Washington State recruiting, Jaguars fellowship; one HS RB season before UTRGV	2020 to present (on-field)	Medium	Low-Medium
James Lockhart IV	Outside Linebackers	Baylor and Texas Tech (Joey McGuire, C.J. Ah You, DeRuyter)	2024 to present	High	Low
Nate Langford	Defensive Line	Texas State (played under Bush-era staff), Seguin HS (Bush's DC), Luling HS (HC)	2016 to present	Medium	Low

Coach	2026 title	Tree roots	Years as position coach or coordinator	Timeline confidence	Player-list confidence
Josh Jones	Special Teams Coordinator, Cornerbacks	Henderson State (Maxfield), Central Arkansas and South Alabama (Campbell, Stewart), Brahmas (Wade Phillips)	2015 to present	High	Medium (UCA, South Alabama), Low elsewhere

How the staff connects: shared nodes in the tree

The staff is not eleven separate trees. It is one tree with a few trunks, and that matters for the archetype: the same offensive lineage is being applied by several coaches at once.

1. **Texas State, 2004 to 2010 (the trunk).** Bush coached WRs then was associate head coach and co-OC under Brad Wright. Bowen played center on that offense (2008 first-team All-Southland). Langford played DE for the same program while Bush was on staff. Barela coached tight ends and ran operations next to Bush from 2007 to 2010. Regalado is a Texas State graduate. Five of eleven staff members share this root.
2. **UTSA, 2011 (the start-up).** Bush was the first offensive coordinator; Bowen was an offensive GA on the same inaugural staff. Bush has said publicly that UTSA's start-from-scratch build is the blueprint for UTRGV.
3. **Houston, 2012 to 2014.** Bush was running backs coach, then play-caller and assistant head coach under Tony Levine. McDonald was the starting safety on those teams and set the school interception record. Doug Meacham was Bush's co-OC in 2013 and was Aych's offensive coordinator at Oklahoma State in 2025, which is the one scheme bridge between Bush and his new play-caller.
4. **Seguin High School, 2016 to 2020.** Bush was head coach, Langford was his defensive coordinator, and UTRGV's best 2025 pass rusher, Ian Box, is a Seguin product.
5. **The Spavital node.** Zac Spavital coached McDonald at Houston and brought him to Texas State as a GA; Gamble coached inside linebackers on the same Texas State staff in 2021 and 2022. Gamble's 2022 unit was credited with the best defensive production in Texas State's FBS history.
6. **Incarnate Word.** Gamble spent ten years there (DL coach, then defensive coordinator); Barela coached tight ends and the run game there in 2015 to 2017; Henderson played there in 2018 and 2019.

Outliers with their own trees: Aych (South Dakota, JUCO, Angelo State, Arizona, Tennessee State, Oklahoma State), Lockhart (Baylor and Texas Tech, Joey McGuire), Jones (Arkansas and Alabama FCS/G5 circuit, then the UFL).

Cross-staff archetype summary

Each line is built only from the documented players in the dossiers that follow. Read it as a prior for the position baseline, not as a label on any recruit.

Position group	Coach	What the top performers had in common	Where the pattern broke (documented LOW)
Offense, program-wide	Bush	Volume pass-game producers: record-setting WRs (Luke 17 TD, Greenberry 100 ypg), accurate and moderately mobile QBs (George 63%, Marburger 31 TD, Ward as a converted athlete). Mostly Texas HS products or Texas-college transfers; honors came as often from lightly recruited players as from blue-chips.	Both documented lows are pocket QBs in year two of a system who lost the job to a more mobile replacement (Piland 2012, O'Korn 2014). Projection risk is highest at drop-back QB after a staff or scheme change.
Quarterback	Aych	Oversized or athletically unusual converts and dual-threat producers (Washington 3,691 pass and 831 rush yds; Walker WR-to-NFL TE; Poindexter 6-5 late bloomer). Low-pedigree origins: D2, JUCO, walk-on. Production spikes in year two or three, not year one.	Lows cluster around staff churn (Arizona 2020, Tennessee State 2022) rather than misreads; Curry is the one "expected breakout" that did not produce.

Position group	Coach	What the top performers had in common	Where the pattern broke (documented LOW)
Wide receiver	Henderson	One season of data. Both top producers were young (Diaz a true freshman), high-TD, and left for FBS within a year. The room exports talent.	None documented. The retention problem is upward, not downward.
Offensive line	Bowen	Young and developmental (Hughes all-conference as a true freshman), a JUCO-to-FBS track record (four of five NEO sophomores signed FBS), durability and availability (Wrather 24 straight starts). Pass protection is the measured output.	None documented.
Tight end and run game	Barela	Power-5 drop-down transfers and position converts (Bowie, Smith Flores). Blocking-first TEs with red-zone value (Smith Flores 20 catches, 6 TD). Honors land on the OL when he coaches OL.	None documented; only upward departure (Smith Flores to ECU).
Running back	Regalado	One season of data. Lead back was a mature graduate transfer (Denney, Yale) in a committee inside a pass-first offense; stated philosophy is downhill. Sourcing leans on the portal (Denney, Lane from LSU for 2026).	None documented.
Defense, program-wide and LB	Gamble	High-volume tacklers over rated recruits (Grubbs 99, Baldwin 85, Haygood 102). Overlooked origins: walk-on, FBS transfer down, true freshman at a start-up. Plays young ILBs early. Multiple and 3-4 fronts ask ILBs to stack tackles.	The one documented low (Foster) was a productive starter who transferred up to Louisville. The failure mode is retention of producers, not evaluation.
Outside linebacker and edge	Lockhart	Long 235 to 265 lb edge rushers used as stand-up/hand-down hybrids (Box; Wilson by association at Texas Tech). Texas HS products arriving as bounce-back transfers rather than rated recruits.	None documented (one season).
Defensive line	Langford	Texas-rooted, non-blue-chip paths: FCS transfer (Box), developmental redshirt producing as a rotational sub (Anderson), veteran grad-transfer nose (Huerta). Every HS stop carries a “most improved defense” tag.	None documented (one season).
Safeties	McDonald	Ball-production players who mirror McDonald’s own 17-INT profile (Prosser pick-six, Graham All-American buzz). First-year players on the field (Davis, Prosser). Nickel/“star” versatility.	None documented.
Cornerbacks and special teams	Jones	Takeaway and pass-breakup volume over size (Smith 10 INT/37 PD, Thompson 9 INT, Williams nation-leading PBU claim). JUCO and small-school Southern origins. All documented production came in a Campbell/Stewart 4-3 at FCS/G5 level.	None documented.

Two staff-wide signals stand out. First, almost every documented top performer was lightly recruited, a transfer down, a walk-on, or a true freshman; blue-chip high school recruits are rare in every tree. Second, where lows exist at all, they are either pocket QBs after a scheme

change or productive players who transferred up. The staff's historical risk is losing its best players to FBS, not misjudging them.

How to use this in the pilot

- `coaching_tree.json` holds the full structure: for each coach, the timeline (years, school, role, who they worked under, sources), mentors, archetype bullets, confidence, gaps, and each stop with TOP and LOW player rows. `coaching_tree_players.csv` and `coaching_tree_timeline.csv` are the flattened versions.
- The archetype bullets are priors for the position baseline that Cam collects in the workbook. When the coach names his own two players per position, those names outrank this document. Where the coach's names and this history agree, the archetype is strong; where they disagree, flag it for the coach rather than averaging.
- Do not train on the LOW set. It is too small and too dependent on staff churn to carry signal. Use it as a list of documented failure modes to check a recruit against (pocket QB in a new system, producer likely to be poached upward).
- Mentor names and schemes are the join keys to the model's existing coaching data (CFBD covers FBS head coaches only). Assistant and FCS histories in this document are the part CFBD does not have.

Recruiting profile layer: what the producers looked like as recruits

Every player row now carries a recruiting profile (Rule 4): 247Sports or Rivals rating and class, high school and hometown, height and weight at signing where a signing-era listing exists, high school production and honors, origin into the program, and testing where any was published. Local tables in edge3-model (the 247 composite proxy and CFBD recruits) were joined first; a same-name local match was kept only when the commit school or high school agreed with the player's documented path, which rejected four false matches (Jalen Thompson, Tyler Williams, Jordan Smith, Logic Hudgens' transfer rating). The web pass then filled the rest from 247Sports, Rivals, On3, MaxPreps, Hudl, school signing releases and local press.

Coverage across the 100 player rows that remain after the attribution corrections:

Field	Rows filled	Note
Any recruiting or HS profile	86	The 14 blanks are pre-2005 Texas State players with no surviving profile, two JUCO linemen whose names could not be confirmed, and group rows.
Star rating (247 or Rivals)	38	Pre-2010 recruits, D2 signees, walk-ons and most UTRGV 2025 signees are unrated. "Unrated" is itself a finding.
Height and weight at signing	49	Signing-era listings where found; otherwise the earliest college roster figure, labeled in the notes.
High school stats or honors	68	MaxPreps, press or the college bio.
Combine or camp testing	1	One hand-timed 40 (Devin Rockette, Oxford Eagle). Verified camp numbers were not found for anyone else; blanks are honest, not estimates.

What the recruiting view says, staff-wide:

- **The producers were three-stars and below.** Of the 32 TOP rows with a 247 star rating, 23 are three-stars, 6 are two-stars, 2 are unrated (Tony Diaz, Brennan Carroll) and one is a five-star (Karlos Williams, a Bills pro, not a college recruit of this staff). The only four-star-plus players anywhere in the tree are Deontay Greenberry (Rivals four-star, Fresno), Tavares Garner (Rivals four-star, Manvel, transferred down from Texas A&M), Willie Baker (ESPN four-star, Livonia) and Boobie Curry (four-star, Houston St. Pius X), and Curry is a documented LOW.
- **Origin is the strongest signal.** Among TOP rows: 34 came straight from high school, 26 were transfers (most of them down from FBS, including Trey Baldwin from Missouri, Brian Holloway from SMU, Michael Bowie from Oklahoma State, Smith Flores from Nebraska, Tyree Wilson from Texas A&M, Marburger from UTSA), 15 were JUCO products, 2 were walk-ons (Ezekiel Barnett, Stanley Berryhill) and 10 are unknown. Bowen's and Aych's rooms are JUCO-heavy; Lockhart, Langford, McDonald and Barela have produced almost entirely with transfers.
- **Texas, by a wide margin.** Of the rows with a known high school, roughly two-thirds are Texas schools, and the UTRGV 2025 producers are almost all Texas HS products (San Marcos, Judson, Manor, Seguin, Dickinson, Harlingen, Boerne, San Benito, Roosevelt, Central Catholic, Sharyland Pioneer, Tomball).
- **Size at signing ran small at the skill spots.** Greg Ward 5-10/160, Larry McDuffey 5-10/162, Tony Diaz 5-11/176, TJ Dement 5-7/175, Fabian Garcia 5-7/175, Brennan Carroll 5-8/165, Shun Brown 5-8/161. The exceptions are the converts and late bloomers that Aych and Barela produced (Poindexter 6-5, Smith Flores 6-5/210, Kyle Washington 6-6/225).
- **Where the lows sat.** The documented LOW rows are mostly three-stars from high school in a pocket-QB or scheme-change situation (O'Korn, Piland, Joiner), one four-star who did not produce (Curry) and two-stars who left for playing time (Berryhill, Starling). The LOW set is not a rating band; it is a situation band.

The per-coach recruiting read is in the "Recruiting / HS profile" column of each stop table and in `coaching_tree_players.csv` (columns `recruit_class`, `stars_247`, `composite_247`, `stars_rivals`, `hs_name`, `hs_city`, `hs_state`, `origin`, `height_signing`, `weight_signing`, `hs_stats`, `hs_honors`, `forty`, `shuttle`, `vertical`, `broad`, `recruit_match_status`, `recruit_confidence`, `recruit_sources`).

Chase Ames: what was pulled, and what Coach Bush received

Chase Ames is a 2027 quarterback from Dripping Springs High School (Texas Class 6A). He is the recruit whose read was built on Coach Bush's own history rather than UTRGV's one-season program history, and that method is now Rule 1 below. The record, from Gmail, Drive and the edge3-model repo:

Date	What	Where it lives
June 12, 2026	Ames family check-in (Chase, Matt Ames, Brian, Kenyon). The decision was a pivot to targeting specific coaching systems and downstream schools with a clear path to playing time, instead of star-based rankings.	Drive: "Ames Family Edge3 Check in, 2026/06/12, Notes by Gemini"
July 13, 2026	Brian sent Chase and Matt a personalized UTRGV visit guide for the July 14 visit, with the questions to ask on the visit.	Email "UTRGV/ Chase Ames"; page amesutrgv.netlify.app
July 13, 2026	Brian sent Coach Bush the UTRGV Risk/Fit wallet on Chase "and how he maps to your program," plus the model and pilot breakdown. NIL material was held back for the staff meeting.	Email "Chase Ames/ Edge3 Pilot" to travis.bush@utrgv.edu; page utrgvamesriskfit.netlify.app
July 15, 2026	The staff demo built for UTRGV carried the Chase file: one year as a varsity starter in Texas 6A, 3,736 yards, 48 TD, 71 percent completions, 12-2; rhythm passer for a proven passing offense; low flight risk (in-state, 4.0 anchor, recruited-to-play fit); comp anchor "the Marburger arc," with Zappe and Mestemaker as the overlooked Texas passers who walked the same road. The file was labeled a comp-anchored EDGE3 staff evaluation. Sources pulled for it: Hudl film, MaxPreps, On3, PFF.	Session "Build Edge3 interactive demo for UTRGV coaching staff"; Desktop `edge3-utrgv-demo/index.html`
August 1 to 2, 2026	Official offer letter from Cameron Herrera; Chase forwarded "It's official!"	Email "Official Offer Letter - 27 QB Chase Ames"
October 21, 2026	Brian asked Cam about a revenue-share agreement for Chase's commitment. Cam: Coach Bush handles revenue share; UTRGV has not paid a high school recruit revenue share and has not raised it.	Email "Chase Ames"
In edge3-model	The pattern was generalized: `scripts/build_utrgv_fcs_comps.py` ("UTRGV FCS comp mapping, Chase Ames pattern, generalized") builds comps for every UTRGV player from rooms Coach Bush knows personally first (Texas State, UTSA, Houston), then regional G5, then the full cohort. The Garret Rangel comp card follows the same anchor ("your offense just made a Walter Payton Award finalist out of this room"). `docs/athletes/wallets/chase-ames/` is the public sample preview, structure only.	edge3-model repo

Two things could not be retrieved from this environment: the two Netlify pages themselves (the domain does not resolve here, and their source is not in either repo, so they were deployed from the desktop), and the FBS/FCS media-guide mapping run. The only media-guide references in edge3-model are the FB-01b verification notes and the April 21 Positional Baselines scope, which proposed a one-time manual scrape of team media guides to fill OC and DC by year. `data/fcs/fcs_head_coaches_manual.csv` holds one row (Bush). The media-guide run is on the desktop or downloads, which this session cannot reach.

Live pilot package

The target format is the platform Dennis runs for the pilot (Prisma on Postgres behind Cognito; `edge3_loader` writes reference tables, `edge3_app` reads them). The `pilot/` folder beside this report holds:

File	Loads into
`migration_coach_tree.sql`	A new Prisma migration adding `CoachStaff`, `CoachStop` and `CoachTreePlayer` as league-wide reference tables, RLS off, grants mirroring `PlayerComparable`.

File	Loads into
`coaching_tree_coaches.csv`, `coaching_tree_stops.csv`, `coaching_tree_players.csv`	Seeds for those three tables: 11 coaches, 108 career stops, 100 ranked player rows with the recruiting profile. UTRGV rows carry `cfbd_player_id` so the loader can link them to `Player`.
`player_facts_utrgv.csv`	Rows for the existing `PlayerFact` table on the 21 UTRGV players in the tree: which coach's room each is read in, the archetype he is read against, and his recruiting profile as labeled facts.
`system_view_utrgv.json`	The System view block in the New Mexico demo pattern: a head-coach block for Bush and one slot per room with the position coach, archetype line, recruiting baseline band, historical proof, the 2025 UTRGV players who map to it, and a provisional or settled status.
`README.md`	Load order, join keys, and the vocabulary rules (facts and priors, never `coach_notes`, never a tier).

Rules added

Three rules now sit in `RULES.md` beside this report and in the Edge3-demos `CLAUDE.md`, with a paste block for the edge3-model `CLAUDE.md` in `EDGE3_MODEL_CLAUDE_MD_ADDITION.md`:

1. Coach history, not program history. Baselines come from the coach's own career at every stop; a first-time head coach is read through his assistant stops; media guides are the source for OC, DC and position-coach assignments by year.
2. Map every position coach to the players he coached, ranked by NFL outcome, then production, then PFF grade, highest to lowest. LOW only when documented. Never train on LOW.
3. Every row carries its source; unverified stays labeled.

Gaps and the next pass

- Full all-conference lists for Incarnate Word 2010 to 2017, Texas State 2004 to 2007 and 2021, Northwestern State, Angelo State, Tennessee State, Midwestern State 2022, and the official 2025 All-Southland roster beyond the names confirmed here.
- Recruiting ratings, sizes and hometowns for most listed players. These are the fields the archetype needs most and the public record covers least.
- Three employment holes: Aych 2008 to 2010, Regalado 2017 to 2019, Barela's 2014 Kansas high school.
- Bush's San Marcos HS assistant year could not be found in any source.
- 2026 in-season production under the new titles (Aych as play-caller, Henderson as pass game coordinator, Barela as run game coordinator, Jones on special teams) is not yet in the record.
- PFF grades for the UTRGV 2025 rows (the FCS pulls in Drive) and for the FCS stops generally; only the FBS tables were joined here.
- The FBS/FCS media-guide mapping run and the two Chase Ames Netlify pages, both on the desktop.

The per-coach dossiers follow. Each ends with its own confidence rating and gap list.

Travis Bush — Head Coach, UTRGV

Timeline

Years	School	Role	Worked under (HC / coordinator)	Source
1991–95 (grad 1995)	Gregory-Portland HS (Portland, TX)	Player, QB; UIL 4A All-State	n/a	https://goutsa.com/staff/travis-bush ; https://www.kristv.com/sports/utrgv-tabs-gregory-portland-grad-travis-bush-as-first-ever-football-coach
1995–99 (Wikipedia says 1995–2000)	Texas State (then SW Texas State)	Player, WR; 4 letters; ST captain 1999; J.C. Kellam Award 1999	n/a	https://goutsa.com/staff/travis-bush ; https://en.wikipedia.org/wiki/Travis_Bush
c. 2000	San Marcos HS	Assistant (per UTRGV bio summary)	—	not found
2001–03 (UTRGV directory says 2001–04)	TCU	Graduate assistant, offensive line (UTRGV bio: "assistant OL coach"); M.Ed. 2003; Frogs 27-10, 3 bowls, C-USA + Liberty Bowl titles	HC Gary Patterson (HC 2000–21). OC not verified	https://goutsa.com/staff/travis-bush ; https://goutrgv.com/staff-directory/travis-bush/722 ; https://en.wikipedia.org/wiki/Gary_Patterson
2004–06	Texas State	Wide receivers coach ("WR coach the past three seasons" per 2007 SLC preview)	HC David Bailiff; co-OCs Blake Miller & Frank Hernandez	https://www.southland.org/news/2007/8/16/21375.aspx ; https://en.wikipedia.org/wiki/2004_Texas_State_Bobcats_football_team ; https://en.wikipedia.org/wiki/2006_Texas_State_Bobcats_football_team
2007–09 (UTRGV directory: 2004–2010 "Assoc. HC / co-OC / QB / WR"; Wikipedia: 2007–2010 co-OC)	Texas State	Associate head coach + co-offensive coordinator (QBs/WRs)	HC Brad Wright (HC 2007–Nov 2010); co-OC Ben Norton	https://www.southland.org/news/2007/8/16/21375.aspx ; https://en.wikipedia.org/wiki/2007_Texas_State_Bobcats_football_team ; https://goutsa.com/news/2010/01/20/utsa-hires-travis-bush-as-offensive-coordinator
Jan 2010–Jan 2012 (one playing season, 2011)	UTSA	Offensive coordinator / QBs, inaugural staff; 2011: 4-6, independent, spread offense	HC Larry Coker	https://goutsa.com/news/2010/01/20/utsa-hires-travis-bush-as-offensive-coordinator ; https://en.wikipedia.org/wiki/2011_UTSA_Roadrunners_football_team ; https://paisano-online.com/426/sports/utsa-hires-travis-bush-as-offensive-coordinator/
Feb 2012–Sep 3 2012	Houston	Running backs coach	HC Tony Levine; OC Mike Nesbitt	https://uhcougars.com/news/2012/2/11/Houston_s_Levine_Completes_Football_Coaching_Staff
Sep 2012–Dec 2012	Houston	Offensive coordinator + QBs (play-caller) after Nesbitt resigned following 30-13 loss to Texas State; Wikipedia labels it "interim"	HC Tony Levine	https://uhcougars.com/news/2012/9/3/Levine_Announces_Staff_Changes ; https://thedailycougar.com/2012/09/04/nesbitt-resigns-as-offensive-coordinator-on-heels-of-loss-to-texas-state/ ; https://en.wikipedia.org/wiki/2012_Houston_Cougars_football_team
2013	Houston	Assistant head coach + co-offensive coordinator (QBs); Doug Meacham hired as OC/co-OC Jan 2013. **Disagreement**: Wikipedia lists Meacham as sole OC in 2013; TCU's hire release calls Meacham "co-OC/QBs"	HC Tony Levine; OC Doug Meacham	https://uhcougars.com/news/2013/1/14/Doug_Meacham_Named_Houston_Offensive_Coordinator ; https://gofrogs.com/news/2013/12/12/Meacham_Hired_as_Offensive_Coordinator ; https://en.wikipedia.org/wiki/2013_Houston_Cougars_football_team

Years	School	Role	Worked under (HC / coordinator)	Source
2014	Houston	Assistant HC / offensive coordinator / QBs (title per Bills 2015 release); Levine fired Dec 8, 2014	HC Tony Levine	https://www.buffalobills.com/news/bills-name-2015-bill-walsh-minority-coaching-fellowship-participants-15410462 ; https://gocoogs.com/?p=15368 ; https://en.wikipedia.org/wiki/Tony_Levine
2015	Buffalo Bills	Bill Walsh Minority Coaching Fellowship participant, worked with RBs at minicamp/training camp (Bills release). UTRGV bio calls it "offensive assistant… running backs and advanced game-plan studies." Dec 12 2022–present	UTRGV	First head coach in program history; 2025: 9-3 (5-3 SLC), T-3rd, unbeaten at home; 6th in Eddie Robinson Award vote; extended through 2030 (Dec 2025); hired Theron Aych as co-OC (Jan 2026)	n/a	https://goutrgv.com/news/2022/12/12/travis-bush-named-first-head-football-coach.aspx ; https://en.wikipedia.org/wiki/2025_UT_Rio_Grande_Valley_Vaqueros_football_team ; https://goutrgv.com/news/2025/12/15/football-utrgv-athletics-inks-coach-bush-to-contract-extension.aspx ; https://www.footballscoop.com/2026/01/15/sources-emerging-fcs-power-lands-big-12-assistant

Tree / mentors

- Gary Patterson (TCU, 2001–03): defensive-minded HC; Bush was an offensive GA on the OL side. https://en.wikipedia.org/wiki/Gary_Patterson
- David Bailiff (Texas State 2004–06, later Rice): Bush's first full-time job, coaching WRs; Bailiff's co-OCs were Blake Miller/Frank Hernandez. https://en.wikipedia.org/wiki/2006_Texas_State_Bobcats_football_team
- Brad Wright (Texas State 2007–10): promoted Bush to associate HC/co-OC with Ben Norton. Scheme listed only as "Multiple"; Bush's bio says the 2008 unit was 4th in FCS scoring and 5th in total offense, and 2009 was 8th in pass offense (289 ypg) and 12th in total offense (422 ypg), i.e., a pass-leaning attack. https://en.wikipedia.org/wiki/Brad_Wright_(American_football) ; https://goutsa.com/staff/travis-bush ; https://en.wikipedia.org/wiki/2010_Texas_State_Bobcats_football_team
- Larry Coker (UTSA 2010–11): national-title HC (Miami) who hired Bush to build the start-up offense; UTSA 2011 listed as a spread. https://en.wikipedia.org/wiki/2011_UTSA_Roadrunners_football_team
- Tony Levine (Houston 2012–14): Bush was his play-caller, QB coach and assistant HC; Doug Meacham (Air Raid lineage, later TCU OC) was co-OC in 2013. https://uhcougars.com/news/2013/1/14/Doug_Meacham_Named_Houston_Offensive_Coordinator
- Rex Ryan / Greg Roman / Anthony Lynn (Bills 2015): Bush sat in the RB room under Lynn in Roman's run-first offense. https://www.buffalorumblings.com/bills-news-notes/2015/1/26/7907955/rex-ryan-buffalo-bills-coaching-staff-confirmed-hires

Archetype read

- Bush's best offensive players are pass-game producers: a 6-7 WR (White), a 17-TD All-American WR (Luke), a 100-ypg WR (Greenberry), a conference OPOY QB (George), a freshman 3,100-yd QB (O'Korn) and a 31-TD transfer QB (Marburger). Volume passing production, not size at RB, is the recurring signal.
- QB profile skews toward accurate, moderately mobile passers who can run when needed (George 63%, Soza 108 rush yds in a game, Ward converted from WR with Wildcat usage, Marburger 4 rush TD); the one classic drop-back in the set (O'Korn) is the one who was benched.
- Recruiting pedigree is mixed: Greenberry was a national (Notre Dame) recruit; Luke, George, Karrington Bush, Soza and Marburger were FCS/G5-level or transfer pieces. Bush's units have produced honors from lightly recruited Texans as often as from blue-chips.
- Home state: nearly every named player is a Texas HS product or Texas-college transfer (Luke, George, Sims, Ward, Farrow, Adams, Marburger; Greenberry from California is the exception); UTRGV 2025 continued this with Texas freshmen earning All-American nods.
- Origin: Texas State and Houston stars were HS-direct developmental players who peaked as sophomores/juniors; UTRGV's first-year stars were a portal QB plus true freshmen, suggesting Bush will pair an experienced transfer QB with HS skill talent.
- Where the pattern broke: the two documented "lows" are QBs in year two of a system (Piland 2012, O'Korn 2014), both losing jobs to more mobile replacements (Jones, Ward). Projection risk for Bush is highest at pocket QB after a staff/scheme change.

What Bush's own tree says about his HC archetype

- Texas State (Bailiff/Wright, 2004–09): scheme listed as "Multiple," but Bush's own co-OC units ranked 4th in FCS scoring (2008) and 8th in pass offense (2009); the rewarded profile was a big, record-setting WR (Luke) and an efficient multi-year QB (George). https://goutsa.com/staff/travis-bush ; https://txst.com/news/2008/12/17/121708aaa_632

- UTSA (Coker, 2011): start-up spread with a sophomore QB who ran and threw (Soza 237/108 in game one); a start-from-scratch blueprint he explicitly cited when taking UTRGV. https://en.wikipedia.org/wiki/2011_UTSA_Roadrunners_football_team ; https://texasfootball.com/article/2023/07/25/bush-sees-similarities-and-differences-between-utsa-and-utrgv
- Houston (Levine, 2012–14): tempo spread with Air Raid influence (Meacham co-OC 2013); rewarded high-volume WRs (Greenberry 76 rec) and a freshman QB throwing 28 TD; the 2014 Wildcat/Ward package shows willingness to play a converted athlete at QB. https://uhcougars.com/news/2013/1/14/Doug_Meacham_Named_Houston_Offensive_Coordinator ; https://thedailycougar.com/2014/09/11/insertion-ward-wildcat-package-takes-pressure-okorn/
- Buffalo (Ryan/Roman/Lynn, 2015): run-first, two-back "balance in the backfield" with elite broken-tackle backs (McCoy, Williams 5.8 ypc); his one exposure to a power-run NFL system. https://www.pff.com/news/pro-bills-find-balance-in-backfield-with-mccoy-and-williams
- High school (Seguin/Canyon): 52-ppg district champion at Seguin and a 3,000-yd/34-TD QB at Canyon who became a P4 signee, consistent with a QB-centric spread. https://n.rivals.com/news/louisville-lands-central-texas-playmaker-qb-deuce-adams
- UTRGV 2025 synthesizes it: portal QB (Newcomer of the Year) + freshman WR (Freshman of the Year) + freshman OL All-American; 9-3 and sixth in Eddie Robinson voting, and he added a Big 12 assistant (Aych) as co-OC. https://www.southland.org/news/2025/11/25/southland-announces-2025-all-conference-football-team-and-superlatives.aspx ; https://www.footballscoop.com/2026/01/15/sources-emerging-fcs-power-lands-big-12-assistant

Confidence: Timeline Medium-High (stops and mentors are triple-sourced; exact years at TCU 2003 vs 2004, Texas State 2009 vs 2010, 2013 OC vs co-OC title, and Bills full-season status are disputed). Players Medium (Texas State 2008–09, Houston and UTRGV lists come from official releases; UTSA, 2004–06 Texas State, Seguin and Bills attribution are thin or indirect).

Gaps: San Marcos HS stint (not found). TCU OC 2001–03 and 2004/2006/2007 All-SLC Texas State honorees. Full 2011 UTSA season totals. 2014 All-AAC names beyond Greenberry. Seguin signees (none found). Marburger's prior school/hometown. Cameron Luke's pro status.

Brian Gamble — Assistant Head Coach / Defensive Coordinator / Linebackers

2021–22	Texas State	Inside linebackers coach	HC Jake Spavital; DC Zac Spavital (Wikipedia lists base 3-4; a CFN article calls it 4-2-5 — disagreement)	https://en.wikipedia.org/wiki/2022_Texas_State_Bobcats_football_team ; https://collegefootballnetwork.com/texas-state-recruiting-big-12-commits/
2023–present	UTRGV	Asst. HC / DC / LB (goutrgv.com says "first assistant head coach"; 2023 DCTF and AFCA bios list only DC/LB — title disagreement)	HC Travis Bush	https://goutrgv.com/staff-directory/brian-gamble/730 ; https://texasfootball.com/article/2023/03/08/utrgv-names-defensive-coordinator ; https://convention.afca.com/?p=3148

Tree / mentors

- R.C. Slocum (Texas A&M, "Wrecking Crew" era) — played LB 1999–2002 (https://en.wikipedia.org/wiki/R._C._Slocum).
- Mike Santiago (UIW founding HC, 2008–11) and Todd Ivicic (UIW DC 2009, 4-2-5) — Gamble's DL years (https://en.wikipedia.org/wiki/2009_Incarnate_Word_Cardinals_football_team).
- Larry Kennan (UIW HC 2012–17, ex-NFL coordinator) — promoted Gamble to DC; Gamble converted UIW to a 3-4 front, first season allowed no 500-yard games, 2013 produced back-to-back shutouts (Texas College, Langston), first in school history (https://uiwcardinals.com/sports/football/roster/coaches/brian-gamble/621).
- Skip Holtz (La Tech HC) — LB coach 2018–20 (https://crescentcitysports.com/la-tech-announces-gamble-as-linebackers-coach/).
- Jake Spavital / Zac Spavital (Texas State) — ILB coach 2021–22; bio credits "best defensive production in program's FBS history (since 2012)" in 2022 (https://txst.com/sports/football/roster/coaches/brian-gamble/1619).
- Travis Bush (UTRGV) — describes scheme as "attacking style of defense with multiple fronts and coverages" (https://goutrgv.com/staff-directory/brian-gamble/730).

Unit: led Southland in five statistical categories; 2nd in FCS in fumbles recovered (https://goutrgv.com/staff-directory/brian-gamble/730). Conference release counts UTRGV honorees as both “five” and “nine” — unresolved.

Archetype read

- Productive, high-volume tacklers rather than highly rated recruits: Grubbs (99), Baldwin (85), Haygood (102) all led or nearly led their teams in tackles; none of the listed players carried a documented 4-star rating.
- Developmental/overlooked origins: Barnett (Burlsworth = walk-on), Holloway (FBS transfer from SMU), Haygood (true freshman starter at a start-up FCS program).
- Gamble’s best LB seasons came early in a player’s career (Grubbs as a freshman, Haygood as a freshman/sophomore), suggesting he plays young, instinctive ILBs quickly.
- Scheme: he has run 3-4 fronts at UIW and Texas State (per Wikipedia) and “multiple fronts” at UTRGV; his ILBs are asked to stack tackles, which favors downhill run-fitters over coverage-first bodies.
- Home state: all documented UTRGV/Texas State players appear to be Texas-rooted (unverified for each), consistent with his A&M/Houston/UIW/Texas State roots.
- LOW break: Foster was a starter who transferred up (Louisville) — the pattern failure is retention of productive players, not evaluation.

Confidence: Timeline Medium (stops and years are consistent across four school bios; HC/DC at Houston and La Tech and the Kilgore HC are unconfirmed; UTRGV title wording disagrees). Players Low–Medium (La Tech and UTRGV lists are sourced; UIW is empty; Texas State honors list for 2021 not retrieved; LOW list is one documented transfer).

Gaps: UIW all-conference defenders 2010–17; La Tech DCs by year; Houston HC; Texas State 2021 ILB names/honors; any dismissals/benchings; recruiting star ratings for all players; 2025 official all-Southland full list.

Jeff Bowen — Co-Offensive Coordinator / Offensive Line

Archetype read

- Bowen's documented OL standouts skew young and developmental: Hughes earned all-conference honors as a true freshman; Joubert and Bernard were JUCO sophomores he moved to FBS within one season.
- JUCO-to-FBS pipeline is his clearest track record (4 of 5 NEO sophomores signed FBS), and his UTRGV line mixes a freshman (Hughes) with a fifth-year (Nicklas) — he builds lines from both ends of the age spectrum rather than from blue-chip HS recruits.
- Pass protection is the measurable output at UTRGV (1.50 sacks/game, 2nd in Southland), consistent with his own background as a 20-start center.
- Academic/durability profile: Wrather (CoSIDA Academic AA, 24 straight starts) and Bowen himself (20 straight starts) suggest a preference for reliable, high-availability interior players.

- Home state: Texas/Oklahoma pipeline (UTSA, Texas State, NEO, SFA, UTRGV); not verified per player.
- LOW break: none documented — no evidence found of a highly rated OL busting or transferring out under him.

Confidence: Timeline Medium (seven consistent school bios; HC names at Texas State 2006–10 and Northeastern State 2019–22 not confirmed; UTRGV title shifted OL coach → OC → co-OC). Players Low (only UTRGV 2025 and NEO 2016 have named honorees; NSU, SFA and most of Northeastern State are empty; no LOW performers found).

Gaps: Northeastern State HC 2019–22 and all-MIAA OL for 2019/2021; NSU 2014–15/2017 OL and TE honorees; SFA 2018 TE names; Texas State HC during his playing/GA years; recruiting ratings and hometowns for all listed players; portal departures from UTRGV's 2025 OL.

Theron Aych — Co-Offensive Coordinator / Quarterbacks Coach

UTRGV, 2026 (QBs) — in progress

TOP:

not found

LOW:

not found

QB Garret Rangel transferred from Oklahoma State citing his spring with Aych (https://www.krgv.com/news/how-new-utrgv-qb-garret-rangel-is-fitting-in-with-the-vaqueros/).

Archetype read

- Best outputs are physically oversized or athletically unusual converts: Walker (WR-to-NFL TE), Poindexter (6-5 late bloomer), Joiner (QB-to-WR), Washington (dual-threat QB with 831 rush yds).
- Low-pedigree origins dominate: walk-on (Berryhill), JUCO (Garrett), D2 recruits (Washington, Walker). No blue-chip HS recruit appears among TOPs.
- Production spikes in year 2-3 in the system rather than year 1 (Poindexter 2018, Washington 2014-15, Joiner 2019).
- Texas/Southwest footprint: Angelo State, UTEP x2, Houston, now UTRGV; Arizona WRs were largely Arizona/California.
- LOWs break the pattern mainly via staff churn (Sumlin firing, Starling leaving a struggling 4-7 offense), not talent misreads; Curry is the one "expected breakout" who did not produce.

Confidence: Timeline Medium (stops are consistent across OSU/Arizona/UTEP/UTRGV bios, but Central Missouri/Washington years conflict and 2008-10 is a hole; Houston title conflicts). Players Low-Medium (Washington, Poindexter, Cowing, Walker are well sourced; 2022-23 TSU and 2025 OSU honors, Angelo State non-QB honors not found).

Gaps: 2008-10 employment; head coaches at Mesabi Range/Fort Scott/Houston/Washington/Central Missouri/Marshall/UTEP 2021 not confirmed; 2022 All-OVC, 2023 All-BS-OVC, 2015 All-LSC, 2025 OSU receiving stats; 2026 UTRGV QB stats/honors. No evidence of any Texas HS head-coaching stint.

Adrian McDonald — Pass Game Coordinator / Safeties Coach

Timeline

LOW:

not found

Archetype read

- Ball-production profile mirrors McDonald himself: interception/turnover makers (Prosser pick-six; Graham All-American buzz; McDonald's 17 INT) rather than box-safety types.
- Youth and early impact: Davis (Fr. All-LSC), Prosser (Fr. All-American) — he gets first-year players on the field.
- Versatile nickel/"star" usage (Prosser) consistent with the pass-game-coordinator title and Spavital/Gibbs-style coverage emphasis.

- Regional Texas/Oklahoma pipeline likely (Houston, Pasadena, San Marcos, Wichita Falls, RGV), but hometowns/ratings of the listed players were not retrievable — unverified.
- No LOW performers surfaced, so no pattern-break can be stated.

Confidence: Timeline High (UTRGV, Texas State, MSU and Houston bios agree on every stop and year; only the March 6 vs March 10, 2023 hire date differs). Players Low (only 2021 MSU and 2025 UTRGV honors found; 2022 MSU and official 2025 All-Southland DB names, player sizes/ratings/hometowns not reached).

Gaps: Sam Rayburn HC and 2018 roster; 2022 LSC honors; full 2025 All-Southland DB list; any 2025-26 UTRGV DB portal departures; recruiting ratings/sizes for all listed players; Houston 2012 DC name.

Gunnar Henderson — Pass Game Coordinator / Wide Receivers

#	Player	Pos	Years	NFL	Production	PFF best	Recruiting / HS profile	Honor / outcome	Source
1	Tony Diaz	WR (true Fr)	2025		6 AA/POY		0★ · class 2024 · San Marcos, San Marcos, TX · 5-11/176 · HS (signed with UTRGV's inaugural 2024 class; redshirted 2024; transferred to Iowa Jan 2026) · HS: career (San Marcos, coach John Walsh): 95 rec, 2,216 yds, 29 TD	1st Team All-Southland; Southland Freshman of the Year; AP FCS All-America Honorable Mention; FCS Football Central, Stats Perform and Phil Steele Freshman All-American; 68 rec / 875 yds / 11 TD (KRGV) vs 67 / 881 / 11 (SI) — sources differ; entered portal Dec 2025, committed to Iowa Jan 9, 2026 (Baylor also offered)	https://goutrgv.com/news/2025/11/25/football-marburger-diaz-earn-major-southland-awards.aspx ; https://goutrgv.com/news/2025/12/17/football-diaz-named-ap-all-american-honorable-mention.aspx ; https://www.krgv.com/news/former-utrgv-star-receiver-tony-diaz-transfers-to-iowa ; https://www.si.com/college/baylor/football/baylor-offers-the-southland-freshman-of-the-year-in-the-transfer-portal-tony-diaz
2	Xavyion (Xayvion) Noland	WR	2025		4 2nd team/FOY			2nd Team All-Southland (per Oregon State roster bio; confirm on Southland release); 831 yds / 7 TD; 2 rec 126 yds 2 TD in opener; committed to Oregon State Jan 2026	https://osubeavers.com/sports/football/roster/xavyion-noland/12217 ; https://en.wikipedia.org/wiki/2025_UT_Rio_Grande_Valley_Vaqueros_football_team ; https://www.krgv.com/news/former-utrgv-star-receiver-tony-diaz-transfers-to-iowa

LOW:

#	Player	Pos	Years	NFL	Production	PFF best	Recruiting / HS profile	What happened	Source
1	none documented	—	—		1 stats			No source documents a UTRGV WR who was highly rated and failed to produce. The opposite problem: Diaz, Noland and TE Smith Flores (24 of 33 passing TDs) all left for FBS after one season; a converted North Texas safety, Jaydon Smith, was added via portal	https://www.krgv.com/news/former-utrgv-star-receiver-tony-diaz-transfers-to-iowa

Archetype read

- Sample is one season, two receivers; treat as provisional. Both top producers were young (Diaz a true freshman) and produced at a level that got them FBS/P4 offers within a year — the room functions as a development-and-export pipeline rather than a retention one.
- High-volume, high-TD usage: Diaz 11 TD, Noland 7 TD alongside QB Marburger's 31 passing TD in a 39.6 ppg offense; the scheme feeds receivers rather than tight ends.
- Noland's opener (2 catches, 126 yds, 2 TD) suggests a vertical/explosive role; Diaz's 68 catches suggests a volume/possession role. Size, recruiting ratings and HS/JUCO origin for both: not found.
- No LOW performers break the pattern because none are documented.

Confidence: Timeline High (consistent across UTRGV releases, local papers and the TCU roster). Players Medium-Low (honors are well sourced, but it is one season; Noland's 2nd-team honor rests on an Oregon State bio).

Gaps: Diaz and Noland recruiting ratings/hometowns/sizes; full 2025 UTRGV receiving leaderboard; whether Brasfield remains on staff; 2026 in-season WR production under Henderson as PGC.

Mike Barela — Run Game Coordinator / Tight Ends

UTRGV tight ends, 2025 (program's first season)

TOP:

#	Player	Pos	Years	NFL	Production	PFF best	Recruiting / HS profile	Honor / outcome	Source
1	Ismael Smith Flores	TE (RS-So, 6-5)	2025		1 stats		3★ 0.8722 · class 2023 · Martin, Arlington, TX · 6-5/210 · transfer-down (from Nebraska)	9 starts, 20 rec / 244 yds / 6 TD (7th SLC in rec TD); former 3-star Nebraska signee (Arlington Martin) who played defense at Nebraska; transferred to East Carolina Jan 2026	https://goutrgv.com/staff-directory/mike-barela/784 ; https://www.krgv.com/news/former-utrgv-tight-end-ismael-smith-flores-announces-commitment-to-east-carolina/ ; https://ecupirates.com/sports/football/roster/ismael-flores/14300

LOW:

not found

none documented (Jaxson Shupe, RS-Fr TE, 3 games, no receiving stats — depth note only). No UTRGV TE made the 2025 All-Southland teams.

Archetype read

- The two biggest hits (Bowie, Smith Flores) were Power-5 drop-down transfers with a position change or fresh start; Barela's best outcomes come from reclamation/conversion projects rather than blue-chip HS recruits.
- Tight ends under Barela are blocking-first with modest catch totals but red-zone value: Wick 30 catches, Smith Flores 20 catches but 6 TD; his clinic material is zone-blocking TE play.
- Honors cluster on the offensive line when he coaches OL (Bowie, Keenan, Hannan) and on unit metrics (sacks allowed, total offense) rather than individual TE awards.
- Texas footprint: Smith Flores (Arlington), UIW/Texas State/SHSU/UNT stops; Bowie (Tulsa) is the exception.
- No documented LOW performers; the only "departure" pattern is talent leaving upward (Smith Flores to ECU).

Confidence: Timeline Medium-High (three school bios agree on stops; disagreements on UTRGV hire year 2023 vs 2024 and Valdosta end 2023 vs 2024). Players Medium (named honorees are well sourced; CMU 2018–19 TE, 2012 NSU all-conference OL, UIW 2017 TE names and Texas State 2007–10 TE honors beyond John Gilley's 2008 HM, https://txst.com/news/2008/11/26/112608aag_904, were not found).

Gaps: HC names for UNT GA years, Morningside, Southwest Baptist, 2014 Kansas HS; full All-RMAC 2020–21 and All-GSC 2022–23 OL lists; UTRGV 2026 rushing results under his run-game title; recruiting ratings/sizes for Wick, Keenan, Hannan.

Marco Regalado — Running Backs (also Recruiting Coordinator)

Timeline

#	Player	Pos	Years	NFL	Production	PFF best	Recruiting / HS profile	What happened	Source
1	none documented	—	—		1 stats			No source reports a UTRGV RB losing a job, transferring out for lack of production, or being dismissed. 2026 adds LSU transfer Malachi Lane	https://www.krgv.com/news/utrgv-running-backs-group-looking-strong-ahead-of-2026-season/

Archetype read

- One season of RB data; the lead back was an Ivy League graduate transfer (Denney, Yale) — a mature, pass-catching, high-floor back in a committee rather than a blue-chip HS recruit.
- Production is committee-based and TD-distributed (Denney 884 yds, Dement 5 TD, Schlenbaker, Garcia, Carroll all used; QB Marburger added 4 rush TD) inside a pass-first 39.6 ppg offense.
- Stated philosophy favors downhill/vertical runners; Denney's 4.68 ypc behind a first-year line matches that profile.
- Transfer-heavy sourcing continues (Denney from Yale, Lane from LSU for 2026), consistent with Regalado's personnel-department background.
- No LOW performers to contrast; pattern is unproven beyond 2025.

Confidence: Timeline Medium (Rice, UTRGV, Jaguars and WSU stops are well sourced; TAMUK 2014 HC, the 2017–19 gap, and the Eaton HS head coach are not found). Players Low-Medium (Denney's honors are solid; other backs' season stats and any recruiting ratings not found; pre-UTRGV stops have no attributable players).

Gaps: 2017–19 employment; Eaton HS 2020 HC and record; TAMUK 2014 HC and any DL honorees 2014–16; Rice 2022/2023 class rankings; full 2025 UTRGV rushing leaderboard; Denney's post-UTRGV destination; 2026 in-season RB results.

LOW:

not found

not found. Unit note: UTRGV credits Box to Lockhart's OLB room while the roster lists him DE and Langford's bio claims the DL; treat Box/Jackson/Anderson as a shared edge pool. Unit stats: 2025 UTRGV 5th in SLC in TFL/game (6.5), 4th in sacks/game (2.25) (https://goutrgv.com/staff-directory/james-lockhart-iv/788).

Archetype read

- The two documented producers (Box; Wilson by association) are long, 235-265 lb edge rushers used as stand-up/hand-down hybrids in odd-front looks, not true off-ball LBs.
- Box is an in-state Texas product (Seguin, same town as Bush/Langford's HS stop) who arrived as an FCS-to-FCS transfer with an injury-shortened prior season, i.e., a bounce-back profile rather than a high-rated recruit.
- Lockhart's own profile (Ennis TX, 6-2/263, P5 transfer DE) mirrors the type: Texas HS, DE frame, relentless-effort tag.
- Sample is one season of his own coaching; no LOW cases documented, so no pattern break to report.

Confidence: Timeline High (multiple school bios agree; only the GA start year is disputed). Players Low (one coaching season, unit assignments blurred between OLB and DL rooms, no official 2025 All-SLC team list retrieved).

Gaps: Full 2025 All-Southland team list; which UTRGV LBs are formally in the OLB room; HC/DC names at A&M and Baylor during his playing years; no transfer-out/LOW data.

Unit stats: 2025 UTRGV 3rd in SLC in points allowed (18.8), 4th in sacks/game (2.25); entire DL returns for 2026 (https://goutrgv.com/staff-directory/nate-langford/778 ; https://www.texasfootball.com/article/2026/08/11/utrgv-2026-preview).

not found. (Nicholas Fernandez, an Arizona DL transfer in the 2025 class, and DE David Nwabuoku were on the 2025 roster, but no source documents either as a disappointment: https://www.utrgvrider.com/utrgv-vaqueros-add-38-on-national-signing-day/.)

Archetype read

- Both honorees are Texas-rooted and arrived through non-blue-chip paths: Box an FCS (Lamar) transfer with an injury-shortened prior year, Anderson a developmental redshirt who produced as a rotational sub (2 starts) rather than a full-time starter.
- Undersized-for-position edge frames (Box 236 lb at DE) with production concentrated in TFL/sacks rather than run-stuffing; the nose (Huerta) is a veteran grad transfer from Bush's old program, Texas State.
- Pattern of "fix-the-defense" credentials at every HS stop (DCTF most-improved tags 2018, 2021) suggests Langford's value is development of overlooked players rather than recruiting rated ones.
- No LOW performers documented, so no counter-pattern available.

Confidence: Timeline Medium (UTRGV bios and news agree on the sequence but disagree on Seguin start year and on his All-Southland year/team; San Marcos HS years not sourced). Players Low (one college season; HS stops have no individual data).

Gaps: 2006 All-SLC team list; San Marcos HS assistant years; any Seguin/Luling all-district or college signees; UTRGV transfer-out data for DL.

LOW:

not found

(pro; honors not found): Darius Phillips, Bryce Thompson, Teez Tabor, Corey Mayfield among 2024 CB stat leaders; S Jordan Mosley 2nd in UFL in tackles (75) in 2024 (https://www.foxsports.com/ufl/san-antonio-brahmas-team-stats?category=defense&season=2024). No Brahmas

DB found on an All-UFL team; 2025 team 1-9. LOW: not found.

Archetype read

- His best corners are ball-production players: Smith (10 INT/37 PD), Thompson (school-record 9 INT), Williams (nation-leading PBU claim), Henderson State's 29-INT defense; the common thread is takeaways/PBU volume over size.
- Origins skew JUCO/small-school and Southern (Williams from Hutchinson CC via Georgia; Smith an Alabama native at an FCS program); no P5-rated recruit appears on the list.
- All documented production came in a Campbell/Stewart 4-3 at FCS/G5 level; his safeties and pro stops yielded no documented honorees, so the archetype is "FCS/G5 cornerback who tackles and plays the ball," not a press-man specialist.
- No LOW cases documented; cannot identify where the pattern broke.

Confidence: Timeline High (six school bios plus UFL staff releases agree; only the 2025 Brahmas HC and the UAPB HC are unresolved). Players Medium for UCA/South Alabama (school bios plus PFF/NFL draft records), Low elsewhere.

Gaps: Tyler Williams' All-American year and team; Darian Mills' honor year; UAPB head coach; NSU/Citadel safety honorees under Jones; any 2024 All-UFL DB; transfer-out or benching cases at any stop; why UTRGV added the special-teams title after the Feb 2026 hire.
